Press Note.

The stirring appeal which the Hon. Prime Ministe of India recently broadcast to the nation regarding th seriousness of the food situation and how the problem ha to be tackled, as it were, on a war footing, is within th knowledge of all. As declared by the Hon. Prim Minister, "it is a war in which every citizen can be a soldie and can serve his or her country. All of us will have t work hard and all of us will have to tight n our belts." I Mysore these urgencie have been engaging the anxiou attention of the Government for the past several month The measures which have been and are being adopted fc increasing food production in the State are well know an have been given due publici at various times. What i more, they have been effectiv Apart from the increase c food production, economy an conservation of the ex stin resources are just as im portant. The Hon. Prim

nister has stressed the paramount necessity of reducing consumption of rice in the country. The imports of rice ve increased in alarming proportions since 1945, until now y are over ten times of what they were in 1945. As nted out in the broadcast, it is astonishing that we should so prodigal in our consumption of rice when every sideration demands that we should reduce it. A special peal is addressed to those for whom rice is the principal t, that they should reduce their consumption a little and e to other foods, and that this can hardly be called a rifice, because so very little is given up.

It was in view of such considerations that the Government sidered it necessary to introduce the austerity measures ce again in Mysore as long back as January 1949. In this tter of the re-introduction of stringent controls, Mysore s perhaps been ahead of other units. It has sometimes en complained that there are more food restrictions in ysore than in the neighbouring Provinces. In the light of e situation envisaged in the broadcast, this is, if at all, an ess in the right direction. The rice ration in Mysore even rice eaters is only 6 ozs., which is the lowest in any rice ing area. The recent orders promulgated completely hibiting the preparation of popular items like Idlis and sais in hotels and restaurants were dictated by the inexor- e logic of facts, as these were proving an avoidable drain the slender rice resources of the State. No doubt, for e time being, the restrictions will be felt as an inconveni- ce. But we have to get used to it. In the words of the on. Prime Minister, "it is absurd for any one to say at he cannot vary his food habits by a little, whatever may ppen to the country; if we do not vary these habits a little may have to vary them much more by force of cumstances whether we like it or not." The Government uld therefore earnestly appeal to all sections of the public co-operate with them in economising the food resources of e country and above all in reducing the consumption of e. The only way to do this is by the strict observance of e austerity orders in the letter and in the spirit.

Press Note.

In April 1947 certain rules were prescribed regulating the future supply of teakwood to public institutions, etc., since teak was, and continues to be, in short supply and the supplies have had to be regulated with due regard to the requirements of Government Departments. As the order now stands, private individuals cannot get their supplies of teak even for legitimate purposes from any of the Government Depots. This has necessitated their obtaining their requirements of teakwood from sources other than Government Depots at rates higher than scheduled rates. In order to put down timber smuggling and help the public to get their requirements of teak for *bona fide* purposes, such as construction of houses, etc., at reasonable rates, Government have passed orders revising the existing rules to the extent of permitting sales, at the local Government Depots, of teak to the public up to 150 or 200 C.ft. at scheduled rates, subject to the production of approved plans and building licenses.

Report on the working of the Anti-Corruption Branch during the year ended June 1949.

At the commencement of the year under report enquiries were on hand in respect of 129 petitions. During the year as many as 552 petitions were received in the Branch. Out of the total number of petitions received, 425 petitions were released for enquiry during the year. 202 of these containing allegations of a less serious nature and generally made against village officers and other local officials were referred to the concerned departmental officers for necessary action. Among the other petitions enquired into, the allegations made in 60 instances were found to be either false or incapable of proof; and investigations in respect of 21 cases in which the allegations were proved, resulted in 6 Government servants being dismissed, 4 reduced, 3 reverted, 5 fined and 10 warned. In the case of 16 officials, promotions to next higher grades were deferred. The licenses of three merchants and the quota of steel in respect of one merchant were cancelled while six merchants were convicted and sentenced by Courts of Law for black-marketing in articles like iron, cement, kerosene, etc.

Eleven cases of black-marketing involving 17 persons in which prosecutions have been launched are pending trial in Courts of Law.

In 17 cases, preliminary enquiries have either been completed or orders of Government are pending in respect of 3 Assistant Commissioners, 2 Amildars, 1 Medical Officer, 1 Executive Engineer, 2 Assistant Engineers, 2 Auditors, 1 Sub-Assistant Surgeon, 1 Agricultural Inspector, 1 Electric Line Inspector, 1 Sub-Inspector, 2 Revenue Inspectors, 3 Sub-Overseers, 2 Accountants, 1 Clerk and 1 Station Master.
